# Material Safety Data Sheet

Issued Date: April 7<sup>th</sup>, 2022

## **Section 1: Chemical Product and Company Identification**

**Product Name:** LASH STUFF VEGAN BROW BONDING -18011022

**Product Type:** Cosmetic Product intended for skin care.

**Chemical Name:** Chemical Mixture

Company Address:

Lash Stuff LLC  
175<sup>th</sup> Street STE 101 Ogden, Utah 84401

Contact Information

Telephone: 1-844-527-4788

Website: [www.lashstuff.com](http://www.lashstuff.com)

## **Section 2: Hazards Identification**

### **Hazard Statement**

Flammable liquids: Flammable liquid and vapour

### **Prevention**

Keep away from heat/sparks/open flames/hot surfaces – no smoking

Lash Stuff LLC  
175 25<sup>th</sup> Street STE 101  
Ogden, Utah 84401

### **Section 3: Composition/information on ingredients**

<b><u>Substance</u></b>	<b><u>%</u></b>	<b><u>CAS</u></b>	<b><u>EINECS</u></b>	<b><u>HAZZARD CLASS ACCORDING TO REG. 1272/2008</u></b>
Polyurethane-14m Amp- Acrylates Copolymer, Alcohol denat., 2-amino- 2methyl-1-propanol	50-75%	515152-49-5 64-17-5 124-68-5	200-578-6 204-709-8	Flam.Liq. 3 H226
Alcohol denat	25-50%	64-17-5	200-578-6	Flam. Liq. 2; H225 Eye Irrit. 2; H319
Phenoxyethanol, Ethylexyglycerin	0.1-1%	122-99-6 70445-33-9	204-589-7 408-080-2	Eye dam. 1 H318

### **Section 4: First Aid Measures**

#### **First Aid: General**

Move out of dangerous area. Consult a physician. Show this data safety sheet to the doctor in attendance.

#### **First Aid: Inhalation**

If breathe in, move person into fresh air. Consult a physician after significant exposure

#### **First Aid: Skin**

Take off contaminated clothing and shoes immediately

#### **First Aid: Eyes**

Rinse with plenty of water. Remove contact lenses. Protect unharmed eye. Keep eye wide open while rinsing.

#### **First Aid: Ingestion**

Clean mouth with water and drink afterwards plenty of water. Do NOT induce vomiting. Never give anything by mouth to an unconscious person. If symptoms persist, call a physician.

### **Section 5: Fire prevention Measures**

#### **Suitable fire extinguishers:**

Suitable extinguishing media: Alcohol-resistant foam Carbon dioxide (CO2) Dry Chemical.

#### **Special hazards deriving from the substance or mixture:**

Water spray may be ineffective unless used by experience firefighters. So not allow run-off from firefighting to enter drains or water courses. Combustion products: No hazardous combustion products are known.

Lash Stuff LLC  
175 25<sup>th</sup> Street STE 101  
Ogden, Utah 84401

**Advice for fire fighters:** In the event of fire, wear self-contained breathing apparatus. Further information; Use water spray to cool unopened containers. For safety reasons in case of fire, cans should be stored separately in closed containments.

#### **Section 6: Accidental Spillage measures**

##### **Personal safety, protection devices and procedures in case of emergency**

Ensure adequate ventilation. Remove all sources of ignition. Beware of vapours accumulation to form explosive concentration. Vapours can accumulate in low area.

##### **Environmental precautions.**

Prevent the product from entering sewer, surface waters, ground water and confined areas.

##### **Methods and materials for containment and for reinstatement**

Contain spillage, and then collect with non-combustible absorbent material and place in container for disposal according to local/ national regulation.

#### **Section 7: Handling and storage**

##### **Precautions for safe handling**

Handle in accordance with good industrial hygiene and safety practice to avoid spills. Do not eat, drink and smoke in work areas.

##### **Conditions for safe storage, including incompatibilities**

Keep the product in the original containers. Store in a cool place, away from any heat source and from direct sunlight. Keep containers tightly sealed. Ensure adequate ventilation.

#### **Section 8: Control of exposure/personal protection**

##### **Control parameters**

**Hydrogen peroxide** T.L.V.-T.W.A. (ACGIH 2004) 1ppm

Irritant/pulmonary oedema/central nervous system

##### **Control of exposure**

Appropriate technical measures should always have priority over personal protection equipment, therefore ensure good ventilation in the workplace via effective local aspiration or generalized air filtration.

##### **Protection of eyes**

Tightly fitting safety goggles

##### **Protection of hands**

Protect the hands with category 1 work gloves such as latex, PVC or nitrile. When deciding on the material for the work gloves, the following should be considered, degradation, breakage and permeation time. The resistance of the gloves should be verified before the use of compound products as it is not predictable. Gloves have a wear time that depends on the duration of exposure.

##### **Protection of the skin**

Don work clothes with long sleeves and safety footwear for professional usage of category 1. Wash with soap and water after having removed the protective clothing.

##### **Respiratory Protection**

Lash Stuff LLC  
175 25<sup>th</sup> Street STE 101  
Ogden, Utah 84401

If the daily exposure threshold in the work environment or level set by the company prevention service of one or more of the substances in the compound are exceeded, don a mask with type B filter or a universal class1,2, or 3 filter must be selected based on the operating limit concentration. The use of equipment for protecting the respiratory system, such as paper masks for organic vapors and the dust, mist, is necessary in the absence of technical measure to limit the worker's exposure. The protection offered by masks is however limited. Where the relevant substance is odorless or its factory threshold is greater than the exposure limit and in case of emergency, or when the exposure levels are unknown or the concentration of oxygen in the work environment is lower than 17 in volume. Don an open circuit compressed air breather apparatus or external source respiratory used with full face mask, half mask or mouthpiece

### **Section 9: Physical and chemical properties.**

#### **Information on the essential physical and chemical properties**

Important data for safety

Aspect: gel

Color: Yellow/Straw yellow

Odor: Characteristic

Ph 20 C; 5, 80 -6,80

### **Section 10: Stability and Reactivity**

#### **Reactivity**

There are no risks of reaction with other substances in normal conditions of use

#### **Incompatible materials**

This product is stable in normal conditions of use and storage.

#### **Conditions to be avoided**

Heat, flames, and sparks

#### **Incompatible materials.**

None known

#### **Products and hazardous decay**

Hazardous decomposition products: Carbon oxides, nitrogen oxides (NOx)

### **Section 11: Toxicological Information**

In the absence of experimental toxicological data on the product itself, the possible health hazards of the product have been assessed based on the properties of the substances contained, according to the criteria established by the reference legislation for classifications.

### **Section 12: Ecological Information**

Lash Stuff LLC  
175 25<sup>th</sup> Street STE 101  
Ogden, Utah 84401

Use according to good working practices, avoiding discarding the product in the environment. Notify the competent authorities if the product has entered the water courses or sewers or has contaminated the soil or vegetation.

**Toxicity**

Non

**Persistence and degradability**

None

**Bioaccumulation**

None

**Soil Mobility**

None

**Other adverse effects**

None

**Section 13: Information on transport**

Methods of waste treatment

The material and its container should be disposed safely avoiding release into the environment.

National and regional provisions that may be in force should be observed.

**Section 14: Information on transport**

UN number

N.A.

Number shipment name: Not Regulated

IMDG Information

Shipping name: Not Regulated

**Section 15: Regulatory Information**

R-phrases: Irritating to eyes, respiratory system, and skin

S-phrases: In case of contact with eyes, rinse immediately with plenty of water and seek medical advice.

Wear suitable protective clothing, gloves, and eye/face protection when it is handled

**Section 16: Other information**

The above information is believed to be correct but does not purport to be all inclusive and shall be used only as a guide. The information in this document is based on the present state of our knowledge and is applicable product with regard appropriate safety precautions. It does not represent and guarantee of the properties of the products. LASH STUFF LLC and its Affiliates shall not be held liable for any damage resulting from handling or from contact with the above product.
