Ogden, Utah 84401

Material Safety Data Sheet

Issued Date: April 7th, 2022

Section 1: Chemical Product and Company Identification

Product Name: LASH STUFF BROW FIXER

Product Type: Cosmetic Product intended for skin care.

Chemical Name: Chemical Mixture

Company Address:

Lash Stuff LLC
175th Street STE 101 Ogden, Utah 84401

Contact Information

Telephone: 1-844-527-4788

Website: www.lashstuff.com

Section 2: Hazards Identification

Hazard Statement

Causes serious eye damage.

Wear Protective gloves/protective clothing/face protection.

Lash Stuff LLC
 175 25th Street STE 101
 Ogden, Utah 84401

Section 3: Composition/information on ingredients

Substances	CAS	EINECS	HAZZARD CLASS 1272/2008

Oxyquinoline Sulfate	134-31-6	205-137-1	Acute Tox. 4 H302
Tetrasodium Edta	64-02-8	200-573-9	Actue Tox. 4 H302 Eye. Dam. 1 H318

Section 4: First Aid Measures

First Aid: General

Not expected to present a significant health hazard under anticipated conditions of normal use.

First Aid: Inhalation

If overcome by exposure, remove victim to fresh air immediately.

First Aid: Skin

Remove contaminated clothing and wash skin with plenty of soap and water.

First Aid: Eyes

Flush eyes thoroughly with water for several minutes and seek medical attention if discomfort persists.

First Aid: Ingestion

If ingested, obtain Emergency medical attention

Lash Stuff LLC
175 25th Street STE 101
Ogden, Utah 84401

Section 5: Fire prevention Measures

Suitable fire extinguishers:

Water nebulized water, foam, excess water, or nebulized water must be used until completely extinguished.

Unstable fire extinguishers:

None

Special hazards deriving from the substance or mixture:

None. Avoid respiration combustion products.

Equipment: Protective helmet with visor, non-flammable clothing. Protective gloves, respiratory.

Section 6: Accidental Spillage measures

Personal safety, protection devices and procedures in case of emergency

Wear personal protection equipment. Remove persons to safety.

Environmental precautions.

Prevent the product from entering sewer, surface waters, ground water and confined areas.

Methods and materials for containment and for reinstatement

A spill can be contained by capping the container. For cleaning up a spill use a suitable absorbent and pump it into the correct container.

Section 7: Handling and storage

Precautions for safe handling

Handle in accordance with good industrial hygiene and safety practice to avoid spills. Do not eat, drink and smoke in work areas.

Conditions for safe storage, including incompatibilities

Keep the product in the original containers. Store in a cool place, away from any heat source and from direct sunlight. Keep containers tightly sealed. Ensure adequate ventilation.

Section 8: Control of exposure/personal protection

Control parameters

Hydrogen peroxide T.L.V.-T.W.A. (ACGHIH 2004) 1ppm

Irritant/pulmonary oedema/central nervous system

Control of exposure

Appropriate technical measure should always have priority over personal protection equipment, therefore ensure good ventilation in the workplace via effective local aspiration or generalized air filtration.

Protection of hands

Protect the hands with category 1 work with gloves such as latex, PVC or equipment. When deciding on the material for the work gloves, the following should be considered, degradation, breakage and permeation time. The resistance of the gloves should be verified before the use of compound products as it is not predictable. Gloves have a wear time that depends on the duration of exposure.

Protection of the skin

Lash Stuff LLC
175 25th Street STE 101
Ogden, Utah 84401

Don work clothes with long sleeves and safety footwear for professional usage of category 1. Wash with soap and water after having removed the protective clothing.

Respiratory Protection

If the daily exposure threshold in the work environment or level set by the company prevention service of one or more of the substances in the compound are exceeded, don a mask with type B filter or a universal class1,2, or 3 filter must be selected based on the operating limit concentration. The use of equipment for protecting the respiratory system, such as paper masks for organic vapors and the dust, mist, is necessary in the absence of technical measure to limit the worker's exposure. The protection offered by masks is however limited. Where the relevant substance is odorless or its factory threshold is greater than the exposure limit and in case of emergency, or when the exposure levels are unknown or the concentration of oxygen in the work environment is lower than 17 in volume. Don an open circuit compressed air breather apparatus or external source respiratory used with full face mask, half mask or mouthpiece

Protection of eyes

It is recommended to don hermetic protective eyewear.

Section 9: Physical and chemical properties.

Information on the essential physical and chemical properties

Important data for safety

Aspect: Creamy Emulsion

Color: White

Odor: Characteristic

Ph 20 C; 2, 40 -2,60

Water solubility; soluble

Viscosity at 20 C: 7000-12000 (cPs)

Combustible properties: Information not available

Lower explosion limit: data not available

Upper explosion limit: data no available

Explosive properties: data no available

Vapor pressure: data no available

Section 10: Stability and Reactivity

Reactivity

The product is stable in normal conditions

High temperatures and temperate less than -5 C

Incompatible materials

Non known

Products with hazardous decay

No hazardous decomposition products know if stored and handled as recommend

Lash Stuff LLC

Ogden, Utah 84401

Section 11: Toxicological Information

Information on the toxicological effects

Toxicological information regarding the mixture:

The finished product is cosmetic and may not be subject to tests on animals. The data indicated refer to the hazardous raw materials contained within the product. Some components are skin sensitizers and may cause eye irritation.

Effects due to chronic exposure: this mixture has not been tested for the effects of chronic exposure according to the OSHA Hazard communication Standard.

Target organs: skin, eye

Routs of ingress: ingestion and the skin

Harmful for ingestion: Ingestion can cause gastrointestinal irritation, nausea, vomiting and diarrhea.

Further information: the damage to health under normal use is unknown and unpredictable.

Section 12: Ecological Information

Use according to good working practices, avoiding discarding the product in the environment. Notify the competent authorities if the product has entered the water courses or sewers or has contaminate the soil or vegetation.

Toxicity

Non

Persistence and degradability

None

Bioaccumulation

None

Soil Mobility

None

Other adverse effects

None

Section 13: Information on transport

Methods of waste treatment

The material and its container should be disposed safely avoiding release into the environment.

National and regional provisions that may be in force should be observer.

Lash Stuff LLC
175 25th Street STE 101
Ogden, Utah 84401

Section 14: Information on transport

Un number
N.A.
Number shipment name: Not Regulated
IMDG Information
Shipping name: Not Regulated

Section 15: Regulatory Information

R-phrases: Irritating to eyes, respiratory system, and skin
S-phrases: In case of contact with eyes, rinse immediately with plenty of water and seek medical advice.
Wear suitable protective clothing, gloves, and eye/face protection when it is handled

Section 16: Other information

The above information is believed to be correct but does not purport to be all inclusive and shall be used only as guided. The information in this document is based on the present state of our knowledge and is applicable product with regard appropriate safety precautions. It does not represent and guarantee of the properties of the products LASH STUFF LLC and its Affiliates shall not be held liable for any damage resulting from handling or from contact the above product.
