

Lash Stuff LLC
175 25th Street STE 101
Ogden, Utah 84401

Material Safety Data Sheet

Issued Date: April 7th, 2022

Section 1: Chemical Product and Company Identification

Product Name: LASH STUFF BROW SHAPER -2103021

Product Type: Eyelashes perm. Cosmetic product for professional use.

Chemical Name: Chemical Mixture

Company Address:

Lash Stuff LLC
175th Street STE 101 Ogden, Utah 84401

Contact Information

Telephone: 1-844-527-4788

Website: www.lashstuff.com

Section 2: Hazards Identification

Hazard Statement

Harmful if swallowed, can cause an allergic reaction, may be corrosive to metals.

Safety recommendations; Prevention

Keep only in original container.

Avoid inhaling the powder

Wash affected parts/clothing carefully after use

Do not eat, drink, or smoke during use

Contaminated work clothes should not be taken away from the workplace.

Wear gloves/protective clothing/ protect the eyes/ protect the face

Safety recommendations; reaction

If swallowed: call poison control or doctor if you feel unwell

In case skin contact: wash thoroughly with soap and water

In case of skin irritation or rash, consult a doctor.

Take off contaminated clothing and wash it before reuse

Absorb spillage to prevent material damage

Safety recommendations; Preservation:

Lash Stuff LLC
175 25th Street STE 101
Ogden, Utah 84401

Store in a corrosive resistant container with a resistant inner liner.

Safety recommendations; Disposal:

Dispose the product/vessel in accordance with local regulations.

Section 3: Composition/information on ingredients

Substance	%	CAS	EINECS	HAZZARD CLASS According to Reg. 1272/2008
Ammonium Thioglycolate	10-25%	5421-46-5	226-540-9	Acute Tox. 3 H301 Med Corr. 1 H290 Skin Sens.
Ceteareth-20	1-5%	68439-49-6	/	Eye Irrit 2 H319
Ethanolamine	1-5%	141-43-5	205-483-3	Skin Corr. 1B H314 STOT SE 3 H335 Aquatic Chronic 3 H412
Mineral oil	1-5%	8042-47-5	232-455-8	Acute Tox. 1 H400
Phenoxyethanol, Ethylhexylglycerin	.01-1%	122-99-6 70445-33-9	204-589-7 408-080-2	Eye dam. 1 H318
Parfume	0.1-1%	/	/	Acute Tox. 4; H302 Skin Irrit. 2 H315 Eye Irrit 2 H319 Skin Sens. 1 H317 Aquatic Chronic 3 H412
Ammonium Hydroxide	0.1-1%	1336-21-6	215-647-6	Skin Corr. 1B H314 Aquatic Acute 1 H400 STOTE SE 3 H335
Polyquaternium-6	0.1-1%	26062-79-3	/	Aquatic Chronic 3H412
Tetrasodium Edta	0.1-1%	64-02-8	200-573-9	Acute Tox. 4 H332 Skin Irrit. 2 H315 Eye Dam. 1 H318 STOT RE 2 H373

Section 4: First Aid Measures

First Aid: General

If in doubt or when symptoms persist, seek a doctor, keep the compound's safety schedule available. Do not administer any substance orally to unconscious persons. Remove contaminated clothing immediately.

First Aid: Inhalation

If breathe in, move person into fresh air. Consult a physician after significant exposure

Lash Stuff LLC
175 25th Street STE 101
Ogden, Utah 84401

First Aid: Skin

Take off contaminated clothing and shoes immediately

First Aid: Eyes

Rinse with plenty of water. Remove contact lenses. Protect unharmed eye. Keep eye wide open while rinsing.

First Aid: Ingestion

Clean mouth with water and drink afterwards plenty of water. Do NOT induce vomiting. Never give anything by mouth to an unconscious person. If symptoms persist, call a physician.

Section 5: Fire prevention Measures

Suitable fire extinguishers:

Resistant alcohol foams, chemical power, carbon dioxide, water spray.

Unsuitable fire extinguishers:

Water Jets

Special hazards deriving from the substance or mixture:

Water spray may be ineffective unless used by experience firefighters. So not allow run-off from firefighting to enter drains or water courses.

Advice for fire fighters: In the even of fire, wear self-contained breathing apparatus. Further information: Use water spray to cool unopened containers. For safety reason in case of fire, can should be stored separately in closed containments.

Section 6: Accidental Spillage measures

Personal safety, protection devices and procedures in case of emergency

Ensure adequate ventilation. Remove all sources of ignition. Beware of vapours accumulation to form expulsive concentration. Vapours can accumulate in low area.

Environmental precautions.

Prevent the product from entering sewer, surface waters, ground water and confined areas.

Methods and materials for containment and for reinstatement

Contain spillage, and then collect with non-combustible absorbent material and place in container for dispose according to local/ national regulation.

Section 7: Handling and storage

Precautions for safe handling

Handle in accordance with good industrial hygiene and safety practice to avoid spills. Do not eat, drink and smoke in work areas.

Conditions for safe storage, including incompatibilities

Keep the product in the original containers. Store in a cool place, away from any heat source and from direct sunlight. Keep containers tightly sealed. Ensure adequate ventilation.

Section 8: Control of exposure/personal protection

Lash Stuff LLC
175 25th Street STE 101
Ogden, Utah 84401

Control parameters

Ammonium Hydroxide: T.L.V.-T.Q.A. (ACHIH) 25ppm

Appropriate technical measure should always have priority over personal protection equipment, therefore ensure good ventilation in the workplace via effective local aspiration or generalized air filtration.

Protection of eyes

Tightly fitting safety goggles

Protection of hands

Protect the hands with category 1 work with gloves such as latex, PVC or equipment. When deciding on the material for the work gloves, the following should be considered, degradation, breakage, and permeation time. The resistance of the gloves should be verified before the use of compound products as it is not predictable. Gloves have a wear time that depends on the duration of exposure.

Protection of the skin

Don work clothes with long sleeves and safety footwear for professional usage of category 1. Wash with soap and water after having removed the protective clothing.

Respiratory Protection

If the daily exposure threshold in the work environment or level set by the company prevention service of one or more of the substances in the compound are exceeded, don a mask with type B filter or a universal class1,2, or 3 filter must be selected based on the operating limit concentration. The use of equipment for protecting the respiratory system, such as paper masks for organic vapors and the dust, mist, is necessary in the absence of technical measure to limit the worker's exposure. The protection offered by masks is however limited. Where the relevant substance is odorless or its factory threshold is greater than the exposure limit and in case of emergency, or when the exposure levels are unknown or the concentration of oxygen in the work environment is lower than 17 in volume. Don an open circuit compressed air breather apparatus or external source respiratory used with full face mask, half mask or mouthpiece

Section 9: Physical and chemical properties.

Information on the essential physical and chemical properties

Important data for safety

Aspect: Creamy Emulsion

Color: pink

Odor: Characteristic- as a scent

Ph 20 C; 9.30-9.50

Water solubility: soluble

Viscosity at 20 C: 45000-65000 (gir96*RPM10)

Vapour density; Information not available

Auto-inflammability; data not available

Ignition point; data not available

Lash Stuff LLC
175 25th Street STE 101
Ogden, Utah 84401

Inflammability (solids, gases); data not available
Lower explosion limit); data not available
Upper explosion limit; data not available
Explosive properties; data not available
Vapour Pressure (20C); data not available
Odour threshold; data not available
Evaporation rate; data not available
Oxidative properties; data not available

Section 10: Stability and Reactivity

Reactivity

The product may undergo decomposition and/ or violent reactions

Chemical stability

The product may undergo decomposition and/ or violent reactions.

Conditions to be avoided

High temperate, temperatures less than -5C

Incompatible materials.

Avoid mixing with strong acids and oxidizers

Products and hazardous decay

In the event of fire, toxic fumes such as hydrogen sulfide, sulfur oxides, carbon oxides nitrogen may develop.

Section 11: Toxicological Information

The product contains ingredients that could be harmful to health. These components are irritant to the skin and the mucous membranes of the eyes and respiratory system. They could stimulate asthma attacks in sensitive individuals could cause sensitivity reaction in the skin and respiratory hypersensitization.

Effects to chronic exposure: This mixture has not been tested for the effects of chronic exposure according to the OSHA Hazard Communication Standard.

Target organs: skin, respiratory system,

Routes of Ingest: inhalation, ingestion, and the skin.

The general medical conditions aggravated by exposure, will be related to the primary toxic (pharmacological) effect of the substance; any pre-existing conditions, aggravated by exposure, will be related to the primary toxic effect of the substance; any pre-existent dermatitis could deteriorate through the present of skin irritant, as also bronchitis's could be aggravated by the dust and air.

Harmful for ingestion: ingestion can cause gastrointestinal irritation, nausea, vomiting and diarrhea.

Further information: the damage to health under normal use is unknow and unpredictable.

Lash Stuff LLC
175 25th Street STE 101
Ogden, Utah 84401

Section 12: Ecological Information

Use according to good working practices, avoiding discarding the product in the environment. Notify the competent authorities if the product has entered the water courses or sewers or has contaminated the soil or vegetation.

Toxicity

None

Persistence and degradability

None

Bioaccumulation

None

Soil Mobility

None

Other adverse effects

None

Section 13: Information on transport

Methods of waste treatment

The material and its container should be disposed safely avoiding release into the environment. National and regional provisions that may be in force should be observed.

Section 14: Information on transport

UN number

UN 2922

Number shipment name:

TOXIC CORROSIVE LIQUID N.O.S. (Ammonium thioglycolate)

Classes of hazard associated with transport

Road/rail transport (ADR/RID-GGVS/E)

Section 15: Regulatory Information

R-phrases: Irritating to eyes, respiratory system, and skin

S-phrases: In case of contact with eyes, rinse immediately with plenty of water and seek medical advice. Wear suitable protective clothing, gloves, and eye/face protection when it is handled

Section 16: Other information

The above information is believed to be correct but does not purport to be all inclusive and shall be used only as guided. The information in this document is based on the present state of our knowledge and is

Lash Stuff LLC
